

Information on the courses offered – diploma program (updated on October 1st, 2008)

Please note:

- The arrows indicate connections with regard to the content of the courses (e.g. for the attendance of the course „Einzelfragen der Bilanzierung“ (detailed questions of balancing) it is strongly recommended that the course „Grundlagen der Unternehmenspublizität“ (basic corporate disclosure) has been previously attended. A dotted arrow indicates the recommendation of a previous attendance; at least you should catch up on the content of the course in advance (Parallel attendance of the courses “Wirtschaftsprüfung” (auditing) and “Praxis der Abschlussprüfung” (audit in practice) is possible and is an especially suitable combination.)
- Courses in bold letters are mandatory courses; otherwise they are optional.
- Partially two course titles are given, because since summer semester 08 the courses have been newly titled.
- Please consult the course program for the relevant bonus points.
- Seminars have not been included, since currently no further seminars for diploma students are planned, apart from the seminar in winter semester 08/09.
