The European Audit Research Network, EARNet (<http://www.ear-net.eu/>), founded in 2000, intends to foster research and exchange ideas among auditing scholars and researchers in Europe. [The Eighth European Auditing Research Network Symposium will be held on 11-12 September 2015 in Lausanne \(Switzerland\).](#) The Symposium is established as a major event in Europe for presentation and discussion of auditing research papers. It also provides a forum for academics, practitioners, policy-makers and standard-setters to discuss auditing research and current issues in the auditing environment. The Symposium includes parallel sessions of presentation and discussion of research papers, plenary panel sessions and a Keynote Speech. [EARNet encourages submission of papers from a broad spectrum of auditing topics and research methodologies.](#) There will be a best paper award.
