

As one of the world's largest central banks, the Deutsche Bundesbank works in the public interest. Our business areas include monetary policy, banking supervision, financial stability, cash management and payment systems.

The Deutsche Bundesbank is looking to recruit several part-time (50%) research assistants, initially on a two-year contract at the Higher Service level, to work in the **Research Centre** at our Central Office in Frankfurt am Main.

## Research assistants (m/f)

### What the job entails

Your role will be to provide academic support to Research Centre staff in areas such as empirical and structural macroeconomics, banking and finance or macroeconomic forecasting.

Working in an international team, you will contribute to the Deutsche Bundesbank's decision-making process by providing insights into fundamental issues based on academic research. In your work, you will have access to an excellent IT and data infrastructure and have contact with leading international academics.

### What we have to offer

Besides a unique set of tasks, we offer you attractive employment conditions. We can also support you in a variety of ways in completing your PhD.

### What we are looking for

- University degree, (accredited) Master's degree or equivalent qualification in a degree programme with a quantitative focus (eg economics or statistics) with above-average results or enrolment in a PhD programme
- Sound knowledge of empirical methods
- Experience using mathematical/statistical applications such as Matlab, R, Ox, Gauss or Stata
- Proficiency in programming languages such as Fortran, S, CUDA or similar would be an advantage
- Good knowledge of data services such as Bloomberg, Datastream or Haver would be an advantage
- Sound command of written and spoken English

We would like to increase the proportion of female staff at the Deutsche Bundesbank and would therefore welcome applications from women with the appropriate qualifications. Where candidates are equally qualified for the position, preference will be given to applicants with a disability.

If you have any questions, please contact Malte Knüppel (+49 69 9566 2324) or Guido Schultefrankenfeld (+49 69 9566 8727) from the Research Centre or Kerstin Müller from the Human Resources Department (+49 69 9566 8433).

For more information, visit our website at [www.bundesbank.de/Navigation/EN/Bundesbank/Career/career](http://www.bundesbank.de/Navigation/EN/Bundesbank/Career/career). We look forward to receiving your online application and supporting documentation (cover letter, CV, study certificates or current academic transcript) by 30 April 2016, quoting the reference number 2016\_XXXX\_XX.
