

Enterprise and the Environment Summer School 9th to 21st July 2017

Are you interested in learning more about:

- What is the future of energy markets?
- How do financial markets drive long-term environmental decision-making?
- How can we safeguard clean water for everyone?
- Whether the 1.5 degree threshold of the Paris climate change agreement is possible?
- How does climate change affect economic stability?

Participants will directly engage with practitioners in the finance and corporate sectors and learn through a wide range of styles including lectures, case studies, interactive activities and group tasks for six hours each day.

Participants will enjoy the Oxford experience through tours, college dining, pub visits and other social activities.
