Precourse - Quantitative Methods

Winter Semester 2016/2017

The precourse “Quantitative Methods” is designed to review basic mathematical and statistical knowledge and to provide an introduction to specific tools and approaches of econometrics.

Students will get an introduction on the econometric software EViews which is used in the course *Econometric Analysis*. A current version of EViews is installed on the computers in the PC-Pool. More information about the softwares will be provided at the beginning of the course.

The four-day course takes place from **11 to 14 October 2016** as part of the orientation week. The time schedule is as follows:

Time	Location	Contents
Tue. 12-14	HS 104a	Matrix algebra I
Wed. 9-12	HS 104a	Matrix algebra II
Wed. 13-15	PC Pool 2	Eviews Session I
Thu. 9-12	HS 104a	Review of statistics/Simple linear regression
Thu. 14-16	PC Pool 2	Eviews Session I
Fri. 12-14	PC Pool 2	Eviews Session II
Fri. 14-16	PC Pool 2	Eviews Session II
