

Innovationsmanagement:

- Soziales Kapital als Voraussetzung von Innovation? (ABi)
- Social Entrepreneure im Blickpunkt – Wirkung und Verantwortung (ABi)
- Design Thinking - Konzept, Möglichkeiten und Grenzen (ABi)
- Business Case Formulierung – Ansätze, Best Practice Beispiele (ABi)
- Conceptualising 'responsible management of innovation': a literature review (DMW)
- **Responsible Research + Innovation:**
- RRI in the industrial and business sector (lessons from a systematic literature review) (DM)
- Sustainable options for future food innovations (perspectives from a horizons scanning procedure) (DM)

Innovationssystemanalyse, Innovationsökonomik und -politik:

- The Entrepreneurial State: Möglichkeiten und Grenzen des Konzeptes von Mariana Mazzucato (CS)
- Technologische Innovationssysteme: Literaturrecherchen zur Theorie und Analysemethoden, qualitative und quantitative Analysen, Fallstudien (DW)
- Blockchain: Literaturrecherchen, Fallstudien (DW)
- - Sustainability transitions: the case of cultured meat (DMW)
- - Sustainability transitions: the case of plant-based meat substitutes (DMW)
- - Sustainability transitions: the case of conventional meat (DMW)

M&M Themen (HA):

- How large firms can deploy an Outbound Open innovation strategy to mobilize SMEs in their ecosystem, around their services: a cost and opportunity analysis.
- Open innovation in the public sector: the potential role of the citizen as a customer of public policy and services.
- The micro-foundations of open innovation & building openness capability to locking in a competitive advantage over the rival.
- In the time of crisis (COVID-19): what is better? The openness or closeness of the innovation process!

Innovationspolitik

- Mission-oriented innovation policy and instrument mixes – German or European perspective on innovation policy analysis (CS)
- Theory and policy making for Sustainability Transitions with following cases for investigation:
 - Energiewende am Strommarkt (Energy Transition at the German Power Market)
 - Nachhaltiger Flugverkehr (Sustainable Aviation)
 - Elektromobilität vs. Brennstoffzelle

- Wasserstoffstrategie für eine grüne Industrie (CS)
