**Total Work Load:** 180 hours

**Duration of Module:** 1 Semester

**Frequency of Module Offering:** winter term

**Applicability:** Master of Science in Management & Marketing
Module: Management Case Study Seminar

Learning objectives:
Students achieve knowledge on typical management problems. They can independently develop solutions on a methodological basis. Papers on theoretic and methodological basics will help to understand the specific problems and to use a methodic approach. Students can develop within group discussion solutions for cases studies. They will present their results in a plenary discussion. The students will achieve or enhance their capabilities to properly use their management knowledge for specified problems and to prepare, to describe and illustrate complex management issues in a structured way.

Content:
- Case studies on corporate culture and/or
- Case studies on leadership and/or
- Case studies on organizational culture and/or
- Case studies on organizational teams and/or
- Case studies on innovation management and/or
- Case studies on organizational identity.

Freie Universität Berlin

Master in “Finance, Accounting, Taxation and Supplements” (FACTS)

Overview on English-speaking courses

Contact: Prof. Jochen Bigus (jochen.bigus(at)fu-berlin.de)
Advanced Financial Accounting

Eligible for: Master of Science in Finance, Accounting, Taxation & Supplements (FACTS)

Responsibility: Prof. Dr. Klaus Ruhnke, Prof. Dr. Paul Pronobis

Language: English

Type of module: Compulsory course

ECTS: 6

Compulsory and regular attendance: Yes, attendance of 3 hours per week

Duration: One semester

Frequency: Winter Term (October - December)

Pre-requisites: Basic knowledge of International Financial Reporting Standards (IFRS).

Learnings objectives and course content

Consolidated and non-consolidated financial statements and other disclosure requirements according to International Financial Reporting Standards (IFRS). There is an emphasis on the legal perspective of partly complex financial accounting problems. There is seminarial teaching with integrated exercises. Partly taught via an e-learning system.

Examination

Assessment: Written Exam

Exam Period: December

Duration: 90 minutes
Performance Measurement and Incentives

Eligible for
Master of Science in Finance, Accounting, Taxation & Supplements (FACTS)

Responsibility
Prof. Dr. Jochen Bigus

Language
English

Type of module
Compulsory course, attendance of 3 hours per week

ECTS
6

Compulsory and regulary attendance
Yes

Duration
One semester

Frequency
Winter Term (October - December)

Pre-requisites
Basic knowledge of managerial accounting

Learnings objectives and course content
This course provides an overview on the measurement of value creation in firms. Students will learn which concepts of performance measurement and management incentive systems exist and what are the practical difficulties in motivating managers to use these concepts. The course addresses the following topics: direct and indirect performance measurement, residual income concept, Cash Value Added, bonus pools, Balanced Scorecard and the Capital Asset Pricing Model. There is seminarial teaching with integrated exercises.
