## **Seminar zur Ungleichheitsmessung (Measuring Inequality), 107077**

Prof. Dr. Carsten Schröder

Starting Oct. 15, Monday, 10-12 am, Kaminzimmer, Boltzmannstr. 16-20

The aim of the seminar is to introduce you to studying economic inequalities with household-survey data. The [Socio-Economic Panel](#) (SOEP) will serve as our database to re-do recent studies from countries around the world for Germany. Because SOEP offers a broad range of topics for conducting empirical research, attending the course might be an asset for anyone who is eager to write an empirical master thesis. We use STATA – available in FU's PC pool – for all empirical analyses.

**Oct. 15:** Introduction to the data and presentation of topics

**Oct. 22:** Assignment to topics, official registration, and introduction to STATA

**Nov. 05:** Workshop 1

**Nov. 26:** Workshop 2

**Dec. 10:** Presentation of preliminary results (10am – 2pm)

**Jan. 21:** Workshop 3

**Jan. 28:** Final presentations (10am – 2pm)

**March 15:** Submission of thesis + computer codes
